Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

<sup>1</sup> A " " following a place name indicates that the place is coterminous with a MCD. A " " indicates that the place is also a false MCD; the false MCD name is not shown.

<sup>2</sup> A " " following a block number indicates that the block number is repeated elsewhere in the block.

Figure 1 consists of two parts. On the left is a 3x3 grid representing sheets. The top row has three gray squares. The middle row has a white square labeled '1', a white square labeled '2', and a gray square labeled '3'. The bottom row has a gray square labeled '4', a white square labeled '5', and a gray square labeled '6'. On the right is a map of Indiana titled 'Sheet Location within Entity'. A rectangle is drawn on the map, indicating the location of sheet 2 in the northern-central part of the state.

All legal boundaries and names are as of January 1, 2000. The boundaries shown on this map are for Census Bureau statistical data collection and tabulation purposes only; their depiction and designation for statistical purposes does not constitute a determination of jurisdictional authority or rights of ownership or entitlement.
